

Silc S.P.A.

SIL FIM SRL

S/EX

Hot spotting board in stainless steel. Provided with built-in vacuum group. One steam/air spotting gun with condensate separator and solenoid valves, swinging vacuum arm with stainless steel spotting form. Predisposed for connection to central steam and compressed air sources.

Technical details:

Electrical connection: V 230/50/1 (0,3 Kw)

Compressed air consumption: 150 L/min

Compressed air pressure: 10 bar

Steam consumption: 6-10 kg/h

Steam pressure: 5 bar

Overall dimensions: cm. 127x49x90(h)

Net weight: 52 kg
